### What's new:

**Guide The Lunar Executioners Please note this guide is outdated The Lunar Executioners are a 1-4 man group that calls upon the trappings of the lunar ritual place with all it's refinement and emphasis on necromancy. They are a close knit group whose goal is to seek justice, for revenge and more importantly to protect their hometown of Starnova from the encroaching darkness that has consumed the other tribes, led by the goblins and the Empire. The faction has been through many metamorphoses and only four things have remained constant: the spiteful explorers of the Midden Caverns in the northwest abandoned marshes, the upkeep of Starnova's tombs, the tireless travels of the great clan Thumbnail, and the fiery focus on vengeance and retribution for The Hidden Tribunal at the Sanctuary of Zum. The four founders of Lunar Executioners: Zi, Felgar, Faror and Trick. Tip The four members of Lunar Executioners are the only four that wear the 4 gear which includes the swastika icon associated with the Lunar Executioners. Role of The Lunar Executioners Lunar Executioners are currently a busy faction and are made up of 4 different factions: Blue Executioners from Alekrium Red Executioners from Sentinum Green Executioners from Qala Pink Executioners from Melastream These 4 factions are who Lunar Executioners were founded on, and they continue to play a big role in the group. This faction allows for a bigger list of players who can apply for the Lunar Executioners. Quests taken from these factions by its members will allow the blue Executioners to undertake the tasks necessary to complete their main stages of the story; the blue Executioners can help the last resistance to be free of the plague as well as help Nyagan, the leader of the goblin Horde. Blue Executioners Alekrium! The fanatic flavor includes the minor faction of the Alekrium who specialize in more action oriented and fast paced missions. The Alekriums live in a dangerous world filled with unbounded destruction and strange beasts. Much of their life is occupied by traveling to destinations, locating objects or people, relaying message, and attacking their foes. Their troops travel in small groups for this reason and their fun factor relies heavily on fast-action play.**

**In an epic fantasy world where dragons still fly and the earth is just now awakening after many thousands of years of slumber, the old gods stir once again to wreak havoc. Humanity has forgotten their greatest fears but you have not. You have seen the power of the enemy and it terrifies you. Others may be able to save the world, but they will be lost without you... The monsters have awoken. You are their hunter. Deities have been awakened and they will destroy the world unless you stop them. A terrible evil is destroying the earth, you are humanity's last hope. The world is in danger. Humanity's fate depends on you. The Prophets of Old believed that a new era would begin, but they could not have imagined a world where the divine beings they had foreseen would truly exist, where people would fight to the death to seize control of a frozen, destitute world, where a land cursed with demon-spawn would see its people ravaged by a race of monstrous beasts. The end is near. Prophecy has come to pass, the final war is upon us. And even now, the Dark Gods have broken free of their stasis and seize the levers of destiny. Has humanity fought back? An ancient race of humanoid monsters have awakened and the world stands at stake, humanity's last and best hope lies in the hands of a few elite hunters. This is the universe you will find yourself in! The world of Bariz is a place where the future of humanity rests on the shoulders of men and women like you. Will you be the hunter to stop the Dark Gods and save your world? A new age of conflict is coming. Humanity's fate is in your hands... Greater Monsters presents four times more monsters and items than the original Savage Frontier rules package. Despite their size, these monsters are not just generic fantasy or sci-fi fodder; rather they are based on creatures that can be found in the real world, and they've been 'Savage'ified' to look menacing and suit the apocalyptic setting of the Frontier. Here, you will find the various types of monsters and the special vehicles that can be used to combat them. You will need them to make it through this apocalyptic struggle unscathed, for monsters mean only one thing: death. Every monster, vehicle and item has a name, a description, and a price list (**
